## PROFILE

Passionate about aesthetics, art and experiences that create authentic connections, I have over 20 years of international experience working directly with people in Spain, Austria and other countries.

One of my key strengths is the ability to quickly understand a client's needs and preferences and identify the solution that truly fits them. I believe in relationships built on trust, attention and professionalism, not pressure — and the fact that people come back is, for me, the best confirmation.

I have experience in direct sales of cosmetic products, including personalized demonstrations, and I currently run my own real estate business, managing the entire process, from attracting and building relationships with clients to negotiating and closing the sale.

I am autonomous, organized, curious and solution-oriented. I enjoy learning new things and turning ideas into concrete projects — I am currently developing AI-based solutions and automations for restaurants.

I am drawn to new experiences and open to opportunities where I can keep growing, learning and adding value through my experience, my energy and my ability to work directly with people.

## WHAT I BRING TO GERMAINE DE CAPUCCINI

I know southern Tenerife and its people well: beauty salons, aesthetic centres, hotels and the international clientele that comes here. I speak Spanish, English and Romanian, so I can communicate naturally with owners and beauticians from any background. I know what it means to present a product directly, with live demonstrations, and to build long-term relationships. I organize my own area and schedule with the discipline of someone who runs her own business.

## MY PHILOSOPHY

*I don't believe in 'selling'. I believe in listening, understanding what the person in front of me is really looking for, and offering the product that truly suits them. When the product is good and the relationship is honest, the sale comes naturally, and the client comes back.*
